

# 2021 Student Summer Learning Program

NEW BRUNSWICK VIRTUAL LEARNING CENTRE

The Department of Education and Early Childhood Development (EECD) is offering a **free** summer learning program for students entering grade 10, 11 or 12 in the upcoming school year, or those who will graduate in June 2021. To be eligible, you need to be registered in a New Brunswick High School, in June of this year, in one of the four Anglophone districts. Please note students entering Grade 10 are only eligible to take Number, Relations, and Functions 10.

This program will allow you to earn a mark that will be added to your regular school transcript. These are full courses and will take a sizable amount of time to complete (3-4 hours each day). If you want to improve a mark or get ahead in a course, and you have the time to commit, this program might be for you.

## Key Dates

---

Registration opens	June 1 <sup>st</sup>	Courses begin	June 30 <sup>th</sup>
Last day to register	June 25 <sup>th</sup>	Last day of courses	July 29 <sup>th</sup>

- EAL Connections A2.1 120
- EAL Expressions B1.1 120
- EAL Expressions B1.2 120

## To Register

Registration will take place through your school, in the same way as regular online courses. Check with guidance or administration at your school for information. Courses will need to meet a minimum enrollment to be offered. Schools will be notified of any changes to the course list and other information.

## Information for students and families (continued on page 2)

**Q.** How many courses can I take?

**A.** In the time available it isn't possible to do more than a single course. Students can enroll in a maximum of one course.

**Q.** What's the workload like?

**A.** It's an 18-week course being done over one month. You can expect to be putting in several hours each day.

While you can work at your own pace, if you fall too far behind you may be unable to complete the course.

**Q.** How is the course offered? Who teaches it?

**A.** Courses will be offered in D2L Brightspace, the same platform as regular distance learning courses. Courses will be taught by online teachers from NB schools. You can sign in from home <https://nbvlc.nbed.nb.ca>.

**Q.** Do I need to have taken the course before, like with regular summer school?

**A.** No, it's not necessary. You can take a new course for the experience or to free up your schedule. You do need to have the necessary prerequisites to be enrolled.

**Q.** I'm going into grade 10 in the fall, what can I take?

**A.** Students entering grade 10 are eligible to take the Number, Relations and Functions 10 math course.

**Q.** Do I need to be available each day? When do I need to be online?

**A.** The short answer is yes. You need to demonstrate evidence of working each day, but there is some flexibility about when you do your work. Teachers will mostly be available in the morning (9-12), and possibly other times by special arrangement.

**Q.** How is my mark recorded? What if I don't pass?

**A.** At the end of the course, we will send your final mark to your school. They will update your transcript. If you are unsuccessful, or you earn a lower mark on a repeat attempt of a course, it won't be recorded.

**Q.** What do I need for equipment and internet?

**A.** You will need a computer to complete the course (PC or Mac). Where all content is online, internet access is required. For software, you need an up to date browser (e.g. Chrome, Firefox, Safari).

**Q.** What information do I need to sign in? How will I know how to start?

**A.** You'll use your regular NBSS username and password. Before the course starts, you'll receive an email from the teacher with info about how to get started. The courses will open automatically on June 30<sup>th</sup>.

**Q.** Why might I be asked to provide a phone number and/or outside email address?

**A.** Where it's in the summer, if we need to get in touch with you, this will make sure we can do that. Every day will matter, so if you have account issues or other challenges, we need to get in touch.

**Q.** Do I have to submit assignments and complete activities every day?

**A.** Just about... each day in this course will be like four regular days of class. It will go quickly.

**Q.** This isn't what I expected / I found a summer job / I'm falling behind / I no longer need to take this course... now what?

**A.** While we hope you only sign up if you plan to complete the course, we understand that things can happen. If they do, the best plan is to talk with the online teacher to let them know you're not going to continue.

**Q.** I still have questions!

**A.** Throughout the semester we'll be updating schools with more information. You can also email [distance.learning@nbed.nb.ca](mailto:distance.learning@nbed.nb.ca) with questions. Please include some specifics so we know how to best answer your questions.
